

# IP Holdings LLC

## IP-Centric Merchant Bank

IP Holdings LLC (IPH) is an IP-centric merchant banking organization affiliated with General Patent Corporation (GPC), the premier contingency patent licensing and enforcement firm. IP Holdings provides traditional merchant banking services focused on intellectual property that include:

- IP litigation finance
- IP brokerage services
- IP advisory services

## Portfolio Companies

The IP Holdings portfolio includes:

- **Acticon Technologies LLC:** Owns the patents for “smart connectors” known as PC (PCMCIA) cards. It has over 160 licensees that include 3Com, Dell, IBM and Motorola. ([www.acticontech.com](http://www.acticontech.com))
- **Advanced Card Technologies LLC:** Owns patents related to gift, phone and customer loyalty cards, and its many licensees include gift and phone cards vendors and major retailers. ([www.advanced-card.com](http://www.advanced-card.com))
- **Advanced Video Technologies LLC:** Owns a patent on a video chip technology used in video cameras. Licensees include some of the largest cell phone manufacturers and MPEG video camera OEMs. ([www.advancedvidtech.com](http://www.advancedvidtech.com))
- **Digital Technology Licensing LLC:** Owns an essential patent for several wireless communications protocols including GSM, CDMA and Bluetooth devices. Licensees include Cingular, AT&T, T-Mobile, Sprint, all major cell phone manufacturers and regional cell phone carriers, as well as headset and audio equipment OEMs. ([www.digitaltechnologylicensing.com](http://www.digitaltechnologylicensing.com))
- **Forward Technologies LLC:** Owns a patent in the telecommunications field related to call forwarding. Licensees include major regional telephone companies such as Pacific Bell and SBC Communications. ([www.forwardtechllc.com](http://www.forwardtechllc.com))
- **IDN Technologies LLC:** Owns a patent that enables Internet users to use foreign language characters to access web pages and various web applications. Verisign is a licensee of the IDN Technologies patent. ([www.idn-tech.com](http://www.idn-tech.com))
- **Leighton Technologies LLC:** Owns seven patents covering the lamination process for contactless (RFID) cards. Licensees include some of the largest manufacturers of these cards. ([www.leighton-tech.com](http://www.leighton-tech.com))

## Idea Incubator

IP Holdings also operates an idea incubator that includes Ryogen LLC, a cutting-edge genomic research company that holds nine gene-related patents and many pending patent applications that have potential utilization in biomedical research, medical diagnostics and drug development. Ryogen patents are licensed to various biotech companies. ([www.ryogen.com](http://www.ryogen.com)) IP Holdings’ newest incubator companies are Privileged Wireless LLC, a critical cell phone service, and Daily Gift Share LLC, a social network gift card program.

## Brokerage and Consulting

IP Holdings also provides patent brokerage and IP consulting services to inventors, businesses, universities, law firms and financial institutions. IP Holdings represents patent owners on both sell-side and buy-side transactions, provides due diligence to buyers and sellers of intellectual property, and advises patent owners, financial institutions and law firms on IP-related issues.
